Brussels, June, 2008

Dear fellow Ethiopians/Friends of Ethiopia,

As a response to all the positive reactions and encouraging messages from Amen Ethiopia supporters in diverse locations, we would like to invite you to participate in an exhibition and symposium, sharing the experiences of the Amen Ethiopia Pilgrimage. After the successful completion of the historical 'Journey of Hope', it is worthwhile to devote time and attention to reflect on the Amen Ethiopia objectives and what we can do to continue the momentum of activities.

The Exhibition – Symposium will open on **Sunday 6<sup>th</sup> July, 2008 from 09:00-20:00, Location: Liefdadigheidstraat 43, Brussels (see program on the attached poster - separate page).**

We need to continue the work of establishing a framework for communicating the aims and aspirations of the movement in cooperation with influential individuals and others of goodwill. At this formative stage the support, advice and constructive guidance of experienced experts are invaluable to the Amen Ethiopia Initiative. Prof. Hizkias Assefa, an international expert on conflict resolution, will give a Keynote address on **“What does Reconciliation Require ... in the Ethiopian Context.**

We hope that all interested in this initiative and all those involved in Ethiopian affairs will sacrifice time to participate in this important event. We should listen to the voices for peace and reconciliation raised in the course of the Journey of Hope. Together we can make a difference for our people in Ethiopia; however, our effort requires a genuine constructive approach.

For further information please, contact the following numbers: 0486454955 or 0476438071

May Peace prevail in our World!

Amen Ethiopia coordinating committee
